

Imagine & accelerate your evolution into a digital mortgage company.

{ Personalization is powerful. }

Skookum provides custom design and development services to create state-of-the-art, engaging, self-service web and mobile loan origination experiences for lenders and their customers.

EXPERTISE MEANS FASTER TIME TO VALUE.

As a collaborator in the process of developing Ellie Mae's Encompass Consumer Connect™ solution, Skookum possesses deep knowledge of the Encompass Lending Platform™ APIs. This expertise enables us to help lenders extend the value of the platform by seamlessly integrating Encompass with external systems and data, and rapidly building and deploying custom applications.

CUSTOM DIGITAL MORTGAGE SOLUTIONS

Gain competitive advantage:

One size does not fit all. Design and deliver a state-of-the-art web or mobile customer experience that is simple, fast and distinct to your brand.

Capture customer information & quickly convert applications to loans:

Facilitate customer acquisition and dramatically compress time-to-close through an engaging, personalized and guided borrower experience online from any device.

Speed integration & time to market:

Our technical knowledge of Encompass Lending Platform APIs enables rapid integration of custom, or third party solutions that connect to Encompass, seamlessly bringing loans into the environment and leveraging the powerful capabilities of the platform for rules, alerts and compliance.

Customize the mortgage application process & increase transparency:

We flex to your unique business processes and needs by providing full visibility into the data that matters most, including real-time application status, tracking, analytics — and providing lender control of application lifecycle administration through customized workflow, dashboard or reporting functionality.

Operate more efficiently:

Automation of the full loan origination process saves time, reduces paper, and a well-designed user experience simplifies accurate data collection, speeds application to loan conversion, produces higher quality applications — and frees up loan officers to focus on more strategic business.

Our Approach

STRATEGY | DESIGN | TECHNOLOGY

We know that every organization is unique. That's why regardless of where you're at in the process of digital evolution, our team can help. From business strategy, technology assessment, user experience design, to rapid software development and delivery, we enable borrower self-service, 360 degree application lifecycle visibility and control, and more efficient collaboration between loan officers and borrowers.
